

**Product Name :**  
Anemometer

**Product Code :**  
CHINAELABC2550016

**Description :**

Anemometer

**Technical Specification :**

**FEATURES:**

Vane anemometer with simultaneous display of Air Flow or Air Velocity, plus Ambient Temperature  
Calculates air volume in CFM or CMM  
Features data hold and min/max/avg functions  
Easy to set area dimensions are stored in the meter's internal memory for the next power on  
The Vane Anemometer has 8 memory locations for CFM and 8 for CMM for storing commonly used area sizes  
20 point average for Air Flow  
3% velocity accuracy via low friction 2.83 in (72 mm) diameter ball bearing vane wheel on 3.9 ft (120 cm) cable.

**SPECIFICATION:**

This meter is a digital anemometer for measuring the ambient temperature, humidity, dew point Temperature, wet bulb temperature, wind speed, and air volume.  
This meter is a portable, professional measuring Instrument with large-screen LCD and backlight, Multi-unit switching functions.  
This meter has the functions of reading hold, maximum, minimum, etc.  
This meter can be used for hand-held or fixed Measurement.
