

Product Name :
Brake Drum Friction Apparatus Training Lab Kit

Product Code :
CHINAELABC4090001

Description :

Brake Drum Friction Apparatus Training Lab Kit

Technical Specification :

To be bench-mounted Brake Drum Apparatus with single leading and trailing shoe
To have drum torque and braking load applied by weight hangers and cords
Used in the determination of coefficient of friction
To be a simulation of a real brake system
To have simple transition from leading to trailing brake shoes
An Instruction manual for student and lecturer provided
