Product Name : Hydraulic Extruder Motorised	Product Code : CHINAELABC2690112
	<b>Example 2</b> China
Description :	
lydraulic Extruder Motorised	

This Hydraulic Extractor Frame is a motorised unit complete with, Hydraulic Jack with stroke of 600 mm and thrust force of 9000 kgf. It has a control valve for the control of direction of movement of the piston (Ram) and a relief valve to limit the load between 9000 kgf and 10000 kgf. Following adopter plates and adopters for different size of tubes are supplied with the unit..

## Metric Size

Adopter plates for 38, 50, 75, 100, 150 mm tubes. Adopter for 38, 50, 75, 100, 150 mm tubes. Wired for 220 volts, 50 Hz supply.
