

Product Name :
Pneumatic Control Panel Complete with Air Compressor

Product Code :
CHINAELABC2690124

Description :

Consolidation - Pneumatic Control Panel Complete with Air Compressor

Technical Specification :

Pneumatic Control Panel complete with air compressor The unit have precision pressure regulators for controlling confining pressure, back pressure. Capacity: 10.5 kg/sq cm.

AIR COMPRESSORS, 10 Kg/sq.cm.

It is a single stage compressor fitted over an air receiver. ON-OFF switch. pressure gauge and pressure outlet valve are provided as standard. Suitable for operation on 220 volt 50 Hz, single phase supply.
