

Product Name :
Unconfined Compression Apparatus Motorized Proving Ring Type

Product Code :
CHINAELABC2690131

Description :

California Bearing Ratio - Unconfined Compression Apparatus Motorized Proving Ring Type

Technical Specification :

Same except that the loading unit is motorised and the gear system provides three different rates of strain 1.25 mm, 1.5 mm and 2.5 mm/min. The unit operates on 220V single phase supply.
