

Product Name :Product Code :Clamped Bosses Proving RingsCHINAELABC2690165

Description :

High Sensitivity Proving Rings - Clamped Bosses Proving Rings

Technical Specification :

These Proving rings have clamped bosses and are available in the range of 0.5kN - 100kN. repeatability and accuracy of all the rings Capacity 0.5 kN 1.0 kN 2 kN 2.5 kN 5 kN 10 kN 20 kN 25 kN 50 kN 100 kN Integral Proving Rings These Proving rings have integral loading bosses forged and machined along with the ring. These bosses can not shift their position to cause mis-alignment which may result in loss of accuracy These rings are manufactured up to 3000kN capacity. Capacity 0.5 kN 1.0 kN 2 kN
