

Product Name :
Emulsified Asphalt Storage Stability Tester

Product Code :
CHINAELABC4660001

Description :

Emulsified Asphalt Storage Stability Tester

Technical Specification :

Emulsion stability tester is used for the determination of the storage stability of asphalt emulsions.
Glass tube: Effective height: 310mm Mark line: 250ml Sample loading entrance: $\varnothing 32\text{mm} \pm 0.1\text{mm}$
Metal test tube stand
Metal test tube holder
Professional test tube
Test tube plug ($\varnothing 32$)
Branch tube plug ($\varnothing 11$)
Operation manual
Quality certificate
Repair guarantee
