

Product Name :
Mechanical Concrete Test Hammer

Product Code :
CHINAELABC4880004

Description :

Mechanical Concrete Test Hammer

Technical Specification :

Concrete test hammer achieves digital reporting and data sharing via USB interface and Bluetooth. This test hammer is available in wirelessly connecting to a Bluetooth printer and directly printing out test results. Digital part can be separated from main body and coupled with mechanical hammer by a simple push. Once the hammer broke during testing, can easily exchange another hammer and continue to work. The hammer can work as normal without digital part as well. By Bluetooth data in memory can be downloaded to PC or micro printer wireless.

Type: Digital+mechanical
Display: OLED
Accuracy: ± 0.1
Communication: USB, Bluetooth
Voice: NO.
Memory: 1000
Measuring range: 10-100N/mm²
Impact energy: 2.207Nm
Spring rigidity: 785
Stroke distance: 75
Rebound value: 80
Repeatability: Less than ± 1
Battery: Li-battery
Weight: Around 1.1kg
Optional printer: Yes
